The Students, Staff and Management of BHIS-K wishes our readers a prosperous and healthy New Year 2020 !!

Hot Seat

An exciting activity welcomed the students of Grade 5 as they returned to school after their splendid Christmas vacation. The students had a swell of time guessing words related to Social Science by taking the 'hot seat'. The activity helped set a comfortable ground for learning new concepts and was apt to meet its objective as the children were able to participate as they recalled so many words related to social science.

Superpowers

During their History class, the 6th Graders were involved in a group discussion where they brainstormed the various forms of power by reading case studies and real-life scenarios. They advanced from defining power and sharing what types of power would they wish to exercise to how they would exercise power if they had the chance to. And they went on to conclude

how power in the right hands and the right quantity would benefit everyone at large.

Let's refer and learn

The wealth of knowledge gets registered better when you find it after exploring. The Fifth graders explored the library to find information about minerals. Our budding researchers dived deep into various texts and books that dealt with minerals and geography. The monotony of having information reach them was broken as they had to find information themselves thereby making the process even more challenging.

Becoming Geologists!!

The young geologists of Grade 6 were busily involved in decoding the geographical coordinates of prominent locations of Africa and comparing the various physical features. This helped them appreciate how Africa was filled with a variety of geographical features making it astonishingly beautiful and unique.

மொழியின் சிறப்பு

Grade 1 வகுப்பு மாணவர்களுக்கு தமிழ் ஆசிரியை திருமதி. ஸ்டெல்லா ஷோபா அவர்கள் 'அந்தி மல்லி பூத்திருக்கு' என்ற மழலையர் பாடலைக் கற்றுக்கொடுத்தார். அப்பாடலை மாணவர்கள் தம் மழலை மொழியால் அழகிய தன் அசைவுகளின் மூலம் குரல் ஏற்றத் தாழ்வுடன் பாடி, ஆடி மகிழ்ச்சியில் மிளிர்ந்தனர். அப்பாடலை ஆர்வத்துடன் கற்றுக் கொண்டனர். ஆசிரியர் தாம் சொல்ல வந்த கருத்துகளை மாணவர்கள் மகிழ்ச்சி தரும் வகையில் கற்றுக்கொடுத்தால் மாணவர்கள் கல்வியை கற்கின்றனர். இவ் வகுப்பில் கல்வியோடுக் கூடிய நம் மொழி வளர்ச்சி மேம்படுகிறது.
